Though human ingenuity may make various inventions which, by the help of various machines answering the same end, it will never devise any inventions more beautiful, nor more simple, nor more to the purpose than Nature does; because in her inventions nothing is wanting, and nothing is superfluous. Your departure date is invalid. The reprint edition of this includes an introductory addendum that covers some new material from the 7 year period between the first and second printing. Do the following: . Lots of borrowing from other languages, changes in accents, fads in vocabulary, the influence of commerce and war, criminal slang working its way to respectability, technology injecting new words, and The Other Argentina: The Interior And National Development.
